

include/CANDY/HNSWNaiveIndex.h

```
graph BT; A[src/CANDY/HNSWNaiveIndex.cpp] --> B[include/CANDY/HNSWNaiveIndex.h]; C[src/CANDY/IndexTable.cpp] --> B;
```

The diagram illustrates a header file dependency. At the top, a grey rectangular box contains the header file path 'include/CANDY/HNSWNaiveIndex.h'. Below this box, two white rectangular boxes are positioned side-by-side. The left box contains 'src/CANDY/HNSWNaiveIndex.cpp' and the right box contains 'src/CANDY/IndexTable.cpp'. Two blue arrows originate from the top-right corner of the left box and the top-left corner of the right box, both pointing upwards to the bottom edge of the header file box.

src/CANDY/HNSWNaiveIndex.cpp

src/CANDY/IndexTable.cpp
