```

The diagram illustrates a header file dependency. At the top, a grey rectangular box contains the header file path 'include/CANDY/OnlinePQIndex.h'. Below this box, there are two white rectangular boxes. The box on the left contains the source file path 'src/CANDY/IndexTable.cpp', and the box on the right contains 'src/CANDY/OnlinePQIndex.cpp'. Two blue arrows originate from the bottom-right corner of the left box and the bottom-left corner of the right box, both pointing upwards to the bottom edge of the top box, indicating that both source files include the header file.
