

include/CANDY/FaissIndex.h

```
graph BT; A[src/CANDY/FaissIndex.cpp] --> B[include/CANDY/FaissIndex.h]; C[src/CANDY/IndexTable.cpp] --> B;
```

A diagram illustrating file dependencies. At the top is a box labeled 'include/CANDY/FaissIndex.h'. Below it are two boxes: 'src/CANDY/FaissIndex.cpp' on the left and 'src/CANDY/IndexTable.cpp' on the right. Blue arrows point from each of these bottom boxes up to the top box, indicating that both source files include the header file.

src/CANDY/FaissIndex.cpp

src/CANDY/IndexTable.cpp
