

include/DataLoader
/ExpFamilyDataLoader.h

```
graph BT; A[src/DataLoader/DataLoaderTable.cpp] --> B[include/DataLoader/ExpFamilyDataLoader.h]; C[src/DataLoader/ExpFamilyDataLoader.cpp] --> B;
```

The diagram illustrates the relationship between three files. At the top is a header file, 'include/DataLoader/ExpFamilyDataLoader.h', which is shaded gray. Below it are two source files: 'src/DataLoader/DataLoaderTable.cpp' on the left and 'src/DataLoader/ExpFamilyDataLoader.cpp' on the right. Both source files have blue arrows pointing upwards to the header file, indicating that they include the header.

src/DataLoader/DataLoader
Table.cpp

src/DataLoader/ExpFamily
DataLoader.cpp
